Visitor Management Minutes 8.10.26

Present: CP, VL, RS Apologies: SH

- Perth & Kinross Visitor Levy: – can we tweak & share the info provided by this council re overnight levies to promote understanding of the topic: ACT VL
- Portinscale Bridge vans: significant clerk time taken responding to an FOI around the no overnighting signage, followed by contact to councillors. Requestor is not a resident, council has no official position so no further time to be spent on this request
- 13 Valleys: VL to share details of wash-up meeting so we can feed back on issues
- Events in town: VM group to review the calendar produced by KTC office, and request a meeting with Cumberland to discuss the number, scale and impact on the town. Parking a major issue. RS to discuss with landowners re use of fields for temporary event parking, camping & diversification of land use. Would like to insist after a certain # of participants that additional event parking is a mandatory condition.
- Binfluencers: making progress with Cumberland's PSPO reporting portal to capture all fly camping issues, not just those in breach of the current PSPO. Discussing possibility of aires & Elsan points with NT & LDNPA.
- A Boards: CP & VL attended a meeting with Cumberland, LDNPA and KTA. CC drafting a letter to go to all businesses, with KTC as a partner, re use of A boards on the highway; hoping to sign off & distribute in the next 6 weeks.
